Website: [www.mcpafl.org](http://www.mcpafl.org)

#### **Mileage Rate Venture Out: 9.2615 (Tax year 2019)**

The Monroe County Property Appraiser is responsible for identifying, locating, and fairly valuing all property, both real and personal, within the county for tax purposes. The market value of real property is based on the current real estate market. Finding the "market" value of your property means discovering the price most people would pay for your property. Determining a fair and equitable value is the only role of this office in the taxing process. The property appraiser does not create the value. People make the value by buying and selling real estate in the market place. The property appraiser has the legal responsibility to study those transactions and appraise your property accordingly.

A Computer Assisted Mass Appraisal (C.A.M.A.) system is used by experienced appraisers to ensure that fair values are set for all Monroe County property owners. Appraisers are also assisted by our Geographic Information System (GIS) which helps us to provide detailed and up-to-date property ownership maps for field appraisers. The GIS is frequently updated to reflect changes to the land in Monroe County. This information is also used to analyze property data and gives appraisers yet another tool for comparing similar properties.

### 3. Non ad-valorem assessments- **Attached to the property tax bill**

#### **A. Solid Waste Removal - \$402.00/Year**

(includes recycle, garbage, tree trimming, appliances, metal, furniture)
